

# Beginner Friendly

## The AnatomyArchive is Beginner Friendly

You are a Beginner? That's Perfect! Just choose a topic you want to study and [create a page](#) about it.

**I promise you:** You will improve more by creating this one page than by watching 100 hours of Art-TikToks! [Why?](#)

### 'I am not good enough'

Are you still considering whether you are good enough to post on the AnatomyArchive? I understand you, but no worries: We are all here to learn. No one will judge you. If anything, you will probably make new art friends ;)
